Dear Parent/Carer

We are now running an online version of home-school books in the form of a school app combined with secure parent login details. Class teachers will update your child's page with pictures and messages about their learning throughout the week, this page is private to you and staff in School.

The App can be installed on Apple and Android devices, simply search for "Beaumont Hill Academy"

Your personal login details are:

Username: as provided for your child

Password: as provided for your child

After you login with the details above you will be able to choose your own password to use from now on. We hope this will make the system easier to use in future.

We suggest you choose your new password with the following security features in mind:

- More than 8 characters
- Containing upper and lowercase letters
- Containing numbers

Technical support is available by phoning the school office or by speaking to your child's class teacher.

Alternatively, you can email frog@educationvillage.org.uk for support.

Kind regards

Caroline

Caroline Green
