

Rationale	The purpose of Summer School is to gather a literacy overview of upcoming students.
Topic	The topic this year was "Scrumdidlyumptious".
Activities	<p>Students participated in a variety of literacy based tasks around the topic of "Scrumdidlyumptious".</p> <ul style="list-style-type: none"> • What do we think of when we hear the word Scrumdidlyumptious? • Annotated images • Created and followed recipes • Invented new foods by mixing combinations of other foods. • Ordered stories and poems • Visit to a local park • Tried new foods and used adjectives to describe them • Wrote alternative endings to stories • Extended writing by sharing ideas • Read aloud our ideas and alternative endings <p>Summer school was a fantastic success, staff created and collated a great deal of evidence and also provided each child with a scrap book of memories of their summer school experience.</p> <p>Parents were invited into school for a small presentation and also to leave comments and thoughts on how they felt their child had enjoyed their summer school experience.</p>
Student Name	Student A
	<p>Student A joined BHA in September 2018. He attended summer school for one week during the summer break. Following an initial introduction activity which involved writing about our favourite foods staff were able to gauge a baseline progress stage. Activities were then planned around ensuring that Student A was around this progress stage as a baseline. This information was then shared with his new teacher and also the subject lead at the beginning of the academic year.</p> <p>Staff will then confirm or amend the baseline figure during the first data input in the autumn term.</p>
	Student A has settled well into BHA and is currently working within the agreed progress stage.
