1. Statement of intent

At The Education Village Academies Trust, we recognise that the successful appointment and induction of an early career teacher (ECT) strongly contributes to both the development of the school and the ECT. ECTs bring new

ideas and fresh approaches to teaching. In turn, the Trust endeavours to develop and nurture a promising career.

The induction period for ECTs will:

- Enable ECTs to build upon existing knowledge, skills and understanding.
- Assist ECTs in becoming full members of the teaching profession and provide a foundation for CPD.
- Enable ECTs to meet identified goals and complete their induction years to the required standard.
- Be systematic, fair and rigorous in the assessment of ECTs' professional practice.
- Provide support to ECTs failing to make satisfactory progress.

This policy has been established to ensure that the requirements listed above are met, that all parties benefit from arrangements, and that all staff members know their roles, responsibilities and expected practice.

2. Legal Framework

This policy has due regard to all relevant legislation and statutory guidance including, but not limited to, the following:

- DfE (2023) 'Induction for early career teachers (England)'

- DfE (2019) 'Early career framework' (ECF)
- DfE (2011) (latest terminology update December 2021) 'Teachers' Standards'
- Education Act 2002
- The Education (Induction Arrangements for School Teachers) (England) Regulations 2012 as amended
- DfE (2023) 'School teachers' pay and conditions document 2023 and guidance on school teachers' pay and conditions'

This policy operates in conjunction with the following school policies:

- Grievance Policy
- Records Management Policy
- Staff Code of Conduct
- Behaviour Policy
- Disciplinary Policy and Procedure
- Teachers' Pay Policy
- Child Protection and Safeguarding Policy
- Safer Recruitment Policy

Appropriate bodies have a quality assurance role and will be responsible for:

This includes making sure that each ECT receives a personalised induction programme, designated tutor support and a reduced timetable.
- Ensuring procedures in place with regard to support, monitoring, assessment and guidance are fair and appropriate.
- When working with partners to support or facilitate the delivery of their responsibilities:
 - Maintaining full responsibility for their regulatory duties, and not delegating these.

4. Statutory induction

The statutory induction of an ECT is the bridge between ITT and a career in teaching. The school will support ECTs in demonstrating that their performance against relevant standards is satisfactory and equip them with the tools to be a successful teacher.

The 'Teachers' Standards' will be used to assess an ECT's performance during their induction period. These standards will be considered against what can reasonably be expected of the ECT within their work context. All judgements will reflect the expectation that the ECT has effectively consolidated their ITT and demonstrated their ability to meet the relevant standards consistently over a sustained period. The ECF will not be used as an assessment tool.

A qualified teacher will not be employed as a teacher by the school unless they have satisfactorily completed their induction period, or if they meet any of the exemptions listed in [Annex A of the DfE's 'Induction for early career teachers \(England\)' guidance](#).

ECTs serving induction on a full-time basis are required to complete an induction period of two academic years, unless they are subject to an official and agreed reduction or extension to this period in some circumstances. ECTs serving induction on a part-time basis are required to serve the full-time equivalent of two full academic years.

The relevant body will determine the ECT's performance and any pay recommendation through the induction process and the school will consider awarding pay progression to ECTs at the end of the first year of their induction.

Short-term supply teaching of less than one term will not count towards an ECT's induction, as the time frame is too short to enable them to demonstrate performance against relevant standards. If a supply term is extended, the school will not backdate the induction, but will begin the induction upon extension.

Where an ECT is judged to have failed to meet the 'Teachers' Standards' at the end of their induction period, they will not be permitted to repeat induction. They will, however, have the opportunity to appeal against the decision.

Eligibility

In order to determine eligibility, the Principal or Executive Principal will undertake pre-employment checks on the ECT before the ECT takes up the post – these will be verified by the designated appropriate body. These pre-

employment checks will include determining that the ECT holds QTS. The Principal or Executive Principal and the appropriate body will check with the TRA that the ECT holds QTS prior to the induction beginning.

If an ECT holds QTS but has already completed a period of induction which resulted in a judgement of failing to meet the 'Teachers' Standards', they will not be eligible to undertake statutory induction at the school. The Principal or Executive Principal will confirm whether this is the case by consulting the TRA.

The school will not refuse an induction post to an ECT whose QTS was obtained several years ago; although ECTs are encouraged to undertake induction as soon as possible after gaining QTS, there are no barriers to them undertaking induction later.

Teachers who completed their ITT between 1 May 2000 and 30 April 2001 (known as Cohort 1 teachers) are also required to pass the QTS numeracy skills test before completing an induction.

Suitable posts

The Principal or Executive Principal and appropriate body will first agree on the suitability of a post for induction, guided by the following considerations. The post will:

- Have a Principal or Executive Principal who can make a recommendation about whether the ECT's performance against the 'Teachers' Standards' is satisfactory.
- Have an agreement with an appropriate body to quality-assure the process.
- Provide the ECT with an ECF-based induction programme.
- Provide the ECT with the tasks, experience of teaching whole classes, and support needed to enable them to demonstrate satisfactory performance against the 'Teachers' Standards'.
- Ensure the appointment of an induction tutor who holds QTS, and has relevant knowledge and experience.
- Provide the ECT with a reduced timetable to enable them to undertake the activities involved in their induction programme.
- Not make unreasonable demands upon the ECT.
- Not normally demand teaching outside the phase or subject(s) for which the ECT has been employed to teach.
- Not present, on a day-to-day basis, the ECT with unreasonably demanding discipline problems.
- Involve the ECT regularly teaching the same classes.
- Involve planning, teaching and assessment processes similar to those in which other teachers working in similar posts are engaged.
- Not involve non-teaching responsibilities without the provision of appropriate preparation and support.

The Board of Trustees will be satisfied that the school has the capacity to support the ECT in the role and that the Principal or Executive Principal is fulfilling their responsibilities.

The school will recognise that if it enters special measures following an Ofsted inspection, it will not be permitted to offer inductions to ECTs, unless it is given specific permission to do so from an Ofsted inspector. The appropriate body will also need to be satisfied that such circumstance would not unfairly compromise the ECT's ability to successfully their induction.

Beginning induction

Once an ECT has been appointed to a suitable post, the Principal or Executive Principal will notify the TRA in advance of the ECT taking up the post. Upon registration, the ECT will be provided with a named contact to which they may raise any concerns about the induction programme.

The start date for the ECT's induction will be determined by the appropriate body, who will agree this date with the Principal or Executive Principal and the ECT in advance. This start date will be the date the ECT's induction programme formally begins, which may be a different date from when the ECT's contract with the school begins.

The length of the induction period will also be determined prior to the induction commencing. ECTs are required to serve (part-time or full-time) the full-time equivalent of two academic years to complete their induction. Where an ECT is completing their induction on a part-time basis, the school and the appropriate body will liaise to decide the length of the induction period required for each individual case – this will be always be fair and consider the ECT's working pattern. Where an ECT is completing their induction across more than one school, the appropriate body will make the final decision about how the ECT will meet the equivalent of two years' work.

The school will not commence the ECT's induction until an appropriate body has been agreed. The Principal or Executive Principal will ensure that the appropriate body with whom an agreement is reached matches the [criteria](#) for organisations that can act as an appropriate body. When forming an agreement with an appropriate body, the appropriate body and the Principal or Executive Principal will agree any reasonable charges the appropriate body may make to the school for its service.

The Principal or Executive Principal will ensure the ECT is provided with a reduced timetable for their course of induction. This will amount to teaching:

- In the first year (terms 1-3), no more than 90 percent of the timetable of the school's existing teachers on the main pay range.
- In the second year (terms 4-6), no more than 95 percent of the timetable of the school's existing teachers on the main pay range.

These reductions will operate in addition to the timetable reduction related to PPA time.

Mentoring and support

ECTs will be provided with a designated mentor to support them through their induction period, usually a relevant member of the school's teaching staff. The individual who becomes the ECT's mentor will be identified by the Principal or

Executive Principal. This mentor will hold QTS and have the necessary knowledge, experience and time available to carry out the role effectively.

The role of the mentor will be held by a different individual to the induction tutor where at all possible. Where this is not possible, the Principal or Executive Principal may decide to designate a single individual to hold both roles, which may be the Principal or Executive Principal themselves in exceptional circumstances. Where this is the case, the Principal or Executive Principal will ensure the individual understands that they are fulfilling two discrete roles and will ensure that the mentoring support offered is kept separate to any assessment of the ECT against the 'Teachers' Standards'.

Mentors are provided for ECTs in a supportive and advisory capacity only; mentors will not carry out formal assessments of ECTs (unless the mentor is the same individual as the induction tutor). Mentors will hold regular one-to-one sessions with ECTs to discuss how the ECT's induction is going, including offering advice and providing an opportunity for the ECT to ask questions or raise any issues.

Sessions between ECTs and their mentors will be timetabled during teaching hours. Mentoring will only take place outside of teaching hours in exceptional circumstances where flexibility is required due to timetable constraints. In all cases, sessions will be scheduled within contracted time.

Mentors will receive training to support them in their role. The mentor will have access to a funded provider-led programme, or through training delivered in house using DfE-accredited materials. Mentors will be expected to attend these training sessions to ensure they are successful in their role.

Monitoring and assessment

ECTs will also be provided with an induction tutor who will provide regular monitoring and support, and coordination of assessment. The induction tutor will be identified by the Principal or Executive Principal. This individual will hold QTS and will have the necessary skills, knowledge, and time available to effectively work in this role. The role of the induction tutor will be held by a separate individual to the individual performing the role of the mentor where at all possible, as outlined above. In exceptional circumstances it may be appropriate for the Principal or Executive Principal themselves to perform the role of induction tutor.

The main responsibilities of the induction tutor will be to make rigorous and fair judgements about the ECT's progress against the 'Teachers' Standards', and to recognise when early action is required to support an ECT who is experiencing difficulties. ECTs will be informed that they should raise any concerns about their induction with their induction tutor in the first instance. If the matter is not resolved, the ECT will be informed that they can notify their named contact at the appropriate body, who will then investigate the issues raised.

Termly observations of the ECT's lessons will be conducted, usually by the induction tutor. Post-observation review meetings will be arranged in advance of an observation taking place. Following an observation, the ECT and the

observer (induction tutor) will meet to review the teaching observed. All feedback provided by the induction tutor will be prompt and constructive. The induction tutor will make a brief written record of the feedback discussed in a review meeting, which will clearly indicate where any development needs have been identified as a result of the observation.

ECTs will receive progress reviews against the 'Teachers' Standards', conducted by their induction tutors, in each term of their induction where a formal assessment is not scheduled.

For part-time ECTs, progress reviews will also take place each term, regardless of the ECT's working pattern.

Progress reviews will not require ECTs to produce any new evidence specifically to inform the review; all progress reviews will draw on existing evidence of ECTs' teaching. ECTs may be asked to provide copies of existing evidence to the induction tutor to help inform the review. A written record of each progress review will be retained by the school and a copy will be provided to the ECT. This record will include:

- Whether the induction tutor believes the ECT is on track to successfully complete their induction.
- A brief summary of the evidence collected by the induction tutor.
- The agreed development targets for the ECT.
- A review of the ECT's objectives in relation to the 'Teachers' Standards' and the ECT's own individual strengths and needs.

The induction tutor will update the Principal or Executive Principal on the ECT's progress after each progress review. The induction tutor will also notify the appropriate body whether the ECT is making satisfactory progress towards successfully completing their induction. Where the induction tutor believes the ECT is not making satisfactory progress, the induction will also outline to Principal or Executive Principal and the appropriate body the plan they have put in place to support the ECT.

The appropriate body will be provided with copies of all progress reviews.

The ECT will be clearly informed of the outcome of their progress review, to ensure that their formal assessments present no unexpected results to the ECT.

ECTs will be formally assessed in the final term of the first year of their induction and again in the final term of the second year of their induction. The exact dates of these assessments will be agreed between the Principal or Executive Principal and the ECT in advance. Formal assessments will be carried out by the induction tutor or the Principal or Executive Principal only.

If an ECT is absent at the point a formal assessment is scheduled, any outstanding formal assessment will not be made until the ECT returns.

All evidence used for formal assessments will be drawn from the ECT's teaching work during their induction. In order to reduce the potential burden of evidence collection, the evidence used will largely come from that collected during progress reviews and will consist of existing or working documents. ECTs

will not be required to create anything new for a formal assessment. Any evidence used during a formal assessment will be clear and transparent; copies of all evidence used will be provided to both the ECT and the appropriate body. As a result, the school aims for all formal assessments to work in combination with the regular progress reviews; where possible, the ECT should not find any unexpected results from a formal assessment.

The individual undertaking a formal assessment will produce a report following the assessment. This report will make clear how the ECT has been assessed against the 'Teachers' Standards'. Once the report has been completed, the Principal or Executive Principal will hold an assessment meeting with the ECT, where the ECT will be able to add their comments to the report. The report will be signed by the induction tutor, Principal or Executive Principal and ECT. The ECT will then be given the original report, and a copy will be sent to the appropriate body. For the final assessment report, the Principal or Executive Principal will record their recommendation to the appropriate body of whether the ECT's performance throughout their induction has been satisfactorily demonstrated their competence against the 'Teachers' Standards'. For the final assessment meeting, the Principal or Executive Principal will ensure a copy of the report is sent to the appropriate body within 10 working days of the final assessment meeting.

Where an ECT decides to leave their post at the school after completing one term or more, but before the next formal assessment would take place, the induction tutor will complete an interim assessment before the ECT leaves the post. In exceptional circumstances where an interim assessment cannot be completed before the ECT leaves their post, the induction tutor will still complete an interim assessment report and provide a copy to the appropriate body and the ECT.

Completing induction

ECTs will have completed their induction period when they have served:

- The full-time equivalent of two standard academic years (usually six terms); or
 - A reduced period of a minimum of one term (as agreed with the appropriate body) based on previous teaching experience; or
 - A reduced period for part-time ECTs covering but not equivalent to two academic years (as agreed with the appropriate body); or
 - An extended period as a result of absences occurring during the period;
- or

ECTs are still able to progress both their career and pay grade during and after the two-year induction period and are not adversely impacted by this. The extension to a two-year induction period will not prevent the school from awarding pay progression to ECTs at the end of their first year.

The appropriate body will make the final decision as to whether an ECT's performance against the 'Teachers' Standards' has been satisfactory, taking into account the recommendations of the Principal or Executive Principal. The appropriate body will make a decision within 20 working days of receiving the Principal or Executive Principal's recommendation. They will then send written

notification within three working days of reaching the decision to the ECT and the Principal or Executive Principal.

If the decision is taken to extend the period of induction, the ECT will be informed of their right to appeal against this decision and provided with the name and address of the TRA. Any appeal will be notified within 20 working days or the appeal will be deemed to have expired.

Failure to complete the induction period will mean an ECT is no longer eligible to be employed as a teacher in a maintained school.

Where an ECT fails induction and gives notice that they do not intend to exercise their right to appeal, or when the time limit for an appeal expires, the school will dismiss the ECT within 10 working days.

If the appeal is heard but not upheld, the school will dismiss the ECT within 10 days of receiving the outcome of the hearing. The ECT's name will then be held on the list of persons who have failed to satisfactorily complete an induction period by the TRA.

5. Record-keeping

All records regarding ECTs will be kept in accordance with the school's Records Management Policy.

Assessment forms will be signed by the Principal or Executive Principal and submitted to the appropriate body in a timely manner. Assessment forms will be completed at the end of each formal assessment period, stating the date an ECT's employment began, how much of the period has been completed, and any changes in work patterns and absences. Assessment reports will be retained for six years, as recommended by the DfE. ECTs will be advised by the school to retain their original copies of assessment reports.

The TRA keeps records of all submitted appeals and will be contacted as needed. The school will consult the [Employer Access Online service](#) for records of individuals who have passed or failed their induction.

Where an ECT has already completed part of their period of induction in another school, the Principal or Executive Principal will contact the ECT's previous appropriate body to obtain copies of any progress review records or assessment reports, including any interim reports. The Principal or Executive Principal will therefore establish how much required induction time remains for the ECT. The Principal or Executive Principal will also alert the ECT's new appropriate body of any concerns that were raised about the ECT's progress by previous employers, as necessary.

6. Confidentiality

The school will work with the appropriate body and the TRA to ensure that effective arrangements are in place to facilitate the protection and secure transfer of data related to ECT inductions.

The induction process and assessments will not be shared with others involved in the process and will be treated as confidential.

All ECTs will be made aware of who has been granted access to their assessments. The Board of Trustees can request termly general reports on the progress of an ECT but cannot automatically have access to this information. The only exception to this is when an ECT has a concern about an assessment, which would require the Board of Trustees to access the assessment forms to review the situation.

7. Special Circumstances

To recognise the experience of ECTs who already have significant experience teaching whole classes and working to the 'Teachers' Standards', appropriate bodies have discretion to reduce the length of the induction period to a minimum of one term; however, the ECT can still serve a full induction if they wish. The appropriate body also has discretion to reduce the prescribed induction period to a minimum of one term. When considering reducing an induction period, the appropriate body will consider advice from the Principal or Executive Principal, ensure the ECT is in agreement with the decision, and consider the remaining progress that is to be made by the ECT against the 'Teachers' Standards'.

If an ECT is absent for a total of 30 days or more, or equivalent for part-time teachers, (with the exception of statutory maternity, paternity, shared parental, statutory adoption or parental bereavement leave) the induction period will be extended by the aggregate of total days absent.

ECTs who take statutory maternity leave, statutory paternity leave, statutory adoption leave, shared parental leave or parental bereavement leave during their induction period may decide whether their induction should be extended accordingly to meet this purpose. Any outstanding assessments will not be made until the ECT returns to work and has had the opportunity to decide whether to extend induction. If an ECT chooses to extend their induction in these circumstances, the request will be granted. If an ECT chooses not to extend the induction period, their performance will still be assessed against the relevant standards.

The appropriate body has the option to extend the period after induction has been completed where it would be unreasonable to expect the ECT to have demonstrated satisfactory performance. Reasons for this may include illness, personal crisis, disability, a lack of support during induction, etc.

In circumstances where records have been lost due to an error or a data loss which is through no fault of the concerned teacher, the appropriate body has the discretion to decide if the ECT can be exempt from induction. The appropriate body will ensure that every avenue has been explored to recover the missing data or identify an audit trail before making such a decision. In

reaching its decision, the appropriate body will consider the strength of evidence that an error has occurred or that records are missing or lost.

The appropriate body will also account for any evidence that the teacher has demonstrated they have performed satisfactorily against the relevant standards on the basis of evidence from the teacher's previous performance management reviews, and where appropriate, the most recent performance management review statements.

For ECTs completing induction in more than one school simultaneously:

- The separate contracts are added together to calculate the number of days of the induction period; each contract must meet the minimum period criteria.
- One Principal or Executive Principal acts as the lead and will fulfil duties and responsibilities as outlined in this policy.
- One appropriate body will also take the lead in making the decision and is also responsible for gathering evidence from other appropriate bodies who are involved in the process.

8. Unsatisfactory progress and appeals

Additional monitoring and support measures will be put in place when an ECT is not making satisfactory progress, such as holding meetings between the ECT and the Principal or Executive Principal, organising refresher training, and providing more guided supervision. The induction tutor will record unsatisfactory progress within progress review records and clearly outline the support plan in place. The induction tutor will notify the appropriate body of this determination and will share the support plan to be reviewed. The appropriate body and the Principal or Executive Principal will be satisfied that:

- Areas of improvement have been correctly identified.
- Appropriate objectives have been set to guide the ECT to perform against the relevant standards.
- An effective support program is in place to help the ECT improve performance.

When there are still concerns about the ECT's progress following intervention, the Principal or Executive Principal will explain to the ECT the consequences of failure to complete the induction period satisfactorily, and discuss the following with them:

- The identified weaknesses
- The agreed objectives set in order to have them satisfactorily complete the induction to the required standards
- Details of additional support put in place
- Evidence used to inform the judgement
- Details of the improvement plan for the next assessment period

If there are serious capability issues, capability procedures may be instigated before the end of the induction, which may lead to dismissal. This does not prevent them from completing their induction at another school.

If the ECT has had their induction extended or has failed it, the appropriate body will inform the ECT of their right to appeal and the time limit for doing so.

9. Monitoring and review

The Board of Trustees are responsible for reviewing this policy annually.

The effectiveness of this policy will be monitored and evaluated by all members of staff. Any concerns will be reported to the Principal or Executive Principal immediately. Any changes to this policy will be communicated to all relevant stakeholders.

These protected characteristics are defined as: race, disability, sex, age, religion or belief, sexual orientation, pregnancy and maternity and gender reassignment.
